EDUCATION

Visvesvaraya Technological University

Bachelor of Engineering – Information Science and Engineering; CGPA:7.68

Govt PU College

Grade 12 : 82.16%

Karnataka , India

November 2022 – Present

Karnataka , India

September 2020-June 2022

SKILLS SUMMARY

- **Programming Languages:** Python, Javascript.
- **Web Technologie:** HTML, CSS, FastAPI.
- **Database:** SQL, MongoDB.
- **Skill:** Data Structure and Algorithms in Python, Web Application
- **Tool:** VS code, MySQL, Jupyter Notebook, Git.
- **Soft skill:** Teamwork, Communication.

WORK - EXPERIENCE

Full Stack Developer Intern, Exafluence | [LINK](#)

March 2026- Present

- Built a secure Task & Project Management System using FastAPI with REST APIs, role-based access control, Google OAuth, reCAPTCHA, and file management features.
- **Project:** Task & Project Management System

PROJECTS

Task & Project Management System – Full-Stack Web Application| [LINK](#)

March 2026- Present

- Developed a full-stack web application using FastAPI to manage tasks, projects, and team collaboration with role-based access control.
- **Tech Used:** Python, FastAPI, HTML, CSS, JavaScript, SQL, Google OAuth, reCAPTCHA, REST APIs, File Management

Cricket Match Performance Score Prediction Using Excel-Based Analytics | [LINK](#)

July 2025- August 2025

- Developed a Python tool using Pandas to analyze IPL fielding data from Excel and generate player performance scores with position-wise insights.
- **Tech Used:** Python, Pandas, NumPy, Excel, Data Cleaning, Fielding Metrics Calculation

E-Commerce Website – Full-Stack Web Application| [LINK](#)

Oct 2025- Nov 2025

- Fully functional e-commerce platform featuring product listings, secure cart management, dynamic pages, and a clean, responsive user interface designed for smooth shopping experience.
- **Tech Used:** JavaScript, Node.js, Express.js, MongoDB, HTML, CSS and Responsive Design.

Morse Code Detector - Python Project | [LINK](#)

Jan 2025 – Nov 2025

- Developed a Python-based Morse Code Detection system capable of identifying and decoding Morse signals from input patterns.
- Implemented logic to differentiate dots, dashes, and pauses and convert them into readable English text.
- **Tech Used:** Python, File Handling, Signal Processing Logic, CLI-based Interaction.

CERTIFICATION

- **Python Programming- Karunadu Technologies (13 March 2023)**
- **Research Paper (National Conference Innovation & Technology 2025)**
- **Web Development Training (Corizo & IIT Bombay's Mood Indigo)**
